PART 1: Safeguarding children and child protection procedures

Introduction

We are committed to creating and maintaining a strong safeguarding culture throughout the nursery. Safeguarding is everyone's responsibility and is embedded in our daily practice, decision making, leadership and quality assurance processes. We actively encourage professional curiosity, respectful challenge and reflective practice. Staff are expected to raise concerns, seek advice when unsure, challenge unsafe practice and share information promptly in the best interests of children.

We recognise that safeguarding is not solely about responding to significant concerns. It also includes identifying emerging needs, recognising patterns, understanding children's lived experiences and taking appropriate action at the earliest opportunity.

We actively promote a culture where safeguarding is everyone's responsibility, professional curiosity is encouraged, concerns are welcomed, and staff are confident to challenge unsafe practice regardless of role or seniority.

All staff, students and volunteers have a responsibility for safeguarding children, being vigilant and identifying and reporting any safeguarding concerns, in line with this and supporting policies, including:

Acceptable internet use policy	Nappy changing policy
Attendance Policy	Online safety policy
CCTV policy	Promoting positive behaviour policy
GDPR Policy	Recruitment, selection and suitability of staff policy
Critical incident Policy	Respectful intimate care policy
Inclusion and Equality Policy	Missing child from nursery policy
Late collection and non-collection of children policy	Special educational needs and disabilities (SEND) policy
Admissions Policy	Staff code of conduct
Mobile phone and electronic device and social media use policy	Whistleblowing policy and Low level concern policy
Missing child from outings policy	Young workers policy

We ensure all staff, students and volunteers have the necessary knowledge and skills to carry out their duties and are confident to implement these policies and procedures on an ongoing basis to support them in promoting and safeguarding the welfare of children. This is achieved through recruitment and induction processes and by offering ongoing training and support to all staff, appropriate to their specific role, in line with the criteria set out in Annex C of the EYFS.

This policy is reviewed annually to ensure it remains in line with statutory guidance. Its effectiveness is monitored through staff and stakeholder reviews, appraisals and feedback to ensure appropriate knowledge and awareness is in place.

It is the responsibility of every staff member, student and volunteer to report any breaches of this policy to the Designated Safeguarding Lead (DSL).

Policy intention

The policy makes it clear that all staff, students and volunteers have a responsibility to safeguard children and young people and to protect them from harm. It aims to raise awareness of how to safeguard and promote the welfare of children and provides procedures should a child protection issue arise.

This policy applies to all children up to the age of 18 years whether living with their families, in state care, or living independently (*Working together to safeguard children*).

Safeguarding and promoting the welfare of children, in relation to this policy, is defined as:

- Providing help and support to meet the needs of children as soon as problems emerge
- Protecting children from maltreatment, whether that is within or outside the home, including online
- Preventing impairment of children's mental and physical health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Promoting the upbringing of children with their birth parents, or otherwise family network through a kinship care arrangement, wherever possible and where this is in the best interests of the children
- Taking action to enable all children to have the best outcomes in line with the outcomes set out in the Children's Social Care National Framework.

Child protection is an integral part of safeguarding children and promoting their overall welfare. In this policy, child protection shall mean:

- The activity that is undertaken to protect specific children who are suspected to be suffering, or likely to suffer, significant harm. This includes harm that occurs inside or outside the home, including online.

(*Working together to safeguard children*)

To safeguard children and promote their welfare we will:

- Develop a safe organisational culture where staff are confident to raise concerns about professional conduct
- Ensure all staff are able to identify the signs and indicators of abuse, including the softer signs of abuse, and know what action to take
- Understand and be sensitive to factors, including economic and social circumstances and ethnicity, which can impact children and families' lives
- Share information with other agencies as appropriate.

We promote:

- Always listening to children
- Positive images of children
- Children developing independence and autonomy as appropriate for their age and stage of development
- Safe and secure environments for children
- Tolerance and acceptance of different beliefs, cultures and communities
- British values
- Providing intervention and help for children and families in need.

We have a duty to act quickly and responsibly in any instance that may come to our attention. If in any doubt about what constitutes a safeguarding concern, refer to the Designated Safeguarding Lead (DSL). If there is a concern, never do nothing (Laming, 2009), always do something, including sharing information with any relevant agencies. Safeguarding is everybody's responsibility.

The nursery aims to:

- Keep the child at the centre of all we do, providing sensitive interactions that develop and build children's well-being, confidence and resilience. We will support children to develop an awareness of how to keep themselves safe, healthy and develop positive relationships

- Be aware of the increased vulnerability of children with Special Educational Needs and Disabilities (SEND), isolated families and vulnerabilities in families, including the additional potential impact of the trio of vulnerabilities on children and Adverse Childhood Experiences (ACEs)

- Ensure that all staff feel confident and supported to act in the best interest of the child, maintaining professional curiosity around welfare of children, sharing information, and seeking help that a child may need at the earliest opportunity

- Ensure that all staff are trained at least every two years and updated regularly with child protection training and procedures and kept informed of changes to local and/or national procedures, including thorough annual safeguarding updates

- Make any child protection referrals in a timely way, sharing relevant information as necessary in line with procedures set out by Leeds City Council.

- Ensure that information is shared only with those people who need to know in order to protect the child and act in their best interest

- Ensure that staff identify, minimise and manage risks while caring for children

- Follow clear whistleblowing procedures by taking any appropriate action relating to poor or unsafe practices and allegations of serious harm or abuse against any person

working with children including reporting such allegations to Ofsted and other relevant authorities

- Ensure parents are fully aware of our safeguarding and child protection policies and procedures when they register with the nursery and are kept informed of all updates when they occur

- Regularly review and update this policy with staff and parents where appropriate and make sure it complies with any legal requirements and any guidance or procedures issued by Leeds City Council.

Designated Safeguarding Lead (DSL)

The DSL has overall responsibility for the Safeguarding children and child protection policy and procedures. It is their role to ensure that the policy and procedures are implemented to safeguard and promote the welfare of children. They are responsible for coordinating safeguarding and child protection training for staff across the organisation.

There is always at least one designated person on duty during the opening hours of the setting. The designated persons receive comprehensive training, consistent with the training criteria provided in Annex C of the EYFS, at least every two years and update their knowledge on an ongoing basis, but at least once a year. They in turn support the ongoing development and knowledge of the staff team with regular safeguarding updates.

Designated Safeguarding Lead	Stephanie Jackson
Deputy Designated Safeguarding Lead	Amanda Mackay, Joanne Bromley, Hayley Cameron and Amy Bootland

In the unlikely event that both the DSL and Deputy DSL are absent, and to ensure immediate action can be taken, contact the Local Safeguarding Partnership (LSP).

The Management Committee maintain strategic oversight of safeguarding arrangements. They are responsible for ensuring safeguarding remains effective through:

- Regular safeguarding audits
- Annual review of safeguarding policies and procedures
- Monitoring safeguarding training compliance
- Reviewing patterns and trends in safeguarding records
- Monitoring low-level concerns and allegations against staff
- Reviewing safer recruitment processes
- Ensuring sufficient safeguarding resources are available
- Monitoring attendance patterns and safeguarding indicators
- Ensuring lessons learned from safeguarding incidents are reflected in nursery practice

The provider receives regular safeguarding reports to enable effective oversight and quality assurance of safeguarding arrangements.

The role of the DSL

The role of the DSL is to:

- Promote a culture of professional curiosity and ensure safeguarding concerns are analysed holistically, considering patterns, cumulative concerns and contextual information rather than viewing incidents in isolation.
- The DSL will undertake regular audits of safeguarding records, attendance records, low-level concerns, allegations, training records and referral outcomes to ensure safeguarding systems remain effective.

- Monitor and update the Safeguarding children and child protection policy and procedures in line with new legislation and to ensure it is effective. This will be done by making sure that everyone understands the correct procedures during their individual annual review

- Ensure updates and new legislation are reflected in our services as soon as they are known

- Act as a source of support, advice and expertise for all staff, students, volunteers, children and parents who have child protection concerns

- Ensure detailed, accurate, secure written records of concerns and referrals

- Review all written safeguarding reports

- Assess information provided promptly, carefully and refer as appropriate to external agencies

- Provide signposting to other organisations

- Consult with statutory child protection agencies and regulatory bodies where required

- Make formal referrals to statutory child protection agencies or the police, as required.

In addition, the DSL is required to:

- Keep up-to-date with good practice and national requirements for safeguarding and child protection

- Provide information on safeguarding and child protection for the setting

- Raise awareness of any safeguarding and child protection training needs and implement where necessary

- Retain up-to-date knowledge of local child protection procedures, including how to liaise with local statutory children's services agencies and with the local safeguarding partners to safeguard children.

The DSL does not investigate whether or not a child has been abused or investigate an allegation or disclosure. Investigations are for the appropriate authorities, usually the police and social services.

Sharing low-level concerns

On occasion, inappropriate, problematic or concerning behaviour by staff or other adults is observed but does not meet the threshold for significant harm. This may be classed as a 'low-level' concern, although this does not mean that it is insignificant.

See Whistleblowing Policy including reporting Low Level concerns for further information.

We define a low-level concern as:

- Any concern, no matter how small, that an adult working with children may have acted in a way that is inconsistent with our Staff code of conduct policy, including inappropriate behaviour outside of work

- A concern that may be a sense of unease or a 'nagging doubt' and does not meet the harm threshold or is serious enough to refer to the LADO.

We encourage a culture of openness, trust and transparency, with clear values and expected behaviour, monitored and reinforced by all staff. All concerns or allegations, however small, will be shared and responded to. All concerns will be shared with the DSL, or other nominated person, as in our reporting procedures. We encourage concerns to be shared as soon as reasonably practicable and preferably within 24 hours of becoming aware of it. However, it is never too late to share a low-level concern.

It is not expected that staff will be able to determine whether the behaviour in question is a concern, complaint or allegation before sharing the information. If the DSL is in any doubt as to whether the information meets the harm threshold, they will consult the LADO.

For the purposes of this Policy, the Harm Threshold is outlined in the document Keeping children Safe in Education as:

"A person satisfies the harm test if they may harm a child or vulnerable adult or put them at risk of harm. It is something a person may do to cause harm or pose a risk of harm to a child or vulnerable adult."

Occasionally a member of staff may find themselves in a situation which could be misinterpreted or appear compromising to others. If this occurs, staff are encouraged to self-report to the DSL. Equally, a member of staff may have behaved in a manner which, on reflection, falls below the standards set in our Staff behaviour policy. If this occurs, staff are encouraged to self-report to the DSL. We encourage staff to be confident to self-refer and believe it reflects awareness of our standards of conduct and behaviour.

When the DSL receives the information, they will need to determine whether the behaviour:

- Meets, or may meet, the harm threshold (and so contact the LADO)
- Meets the harm threshold when combined with previous low-level concerns (and so contact the LADO)
- Constitutes a 'low-level' concern
- Is appropriate and consistent with the law and our Staff behaviour policy.

The DSL will make appropriate records of all information shared, including:

- With the reporting person
- The subject matter of the concern
- Any relevant witnesses (where possible)
- Any external discussions such as with the LSP or LADO
- Their decision about the nature of the concern
- Their rationale for that decision
- Any action taken.

This constitutes a record of low-level concern. We retain all records of low-level concerns in a separate low-level concerns file, with separate concerns regarding a single individual kept as a chronology. These records are kept confidential and held securely, accessed only by those who have appropriate authority. Records will be retained at least until the individual leaves their employment.

If the low-level concern raises issues of misconduct, then appropriate actions following our Disciplinary procedures will be taken. Records will be kept in personnel files as well as on CPOMs staff safe.

Recording low levels of concern regarding children and families

Sometimes, a conversation or event occurs which does not constitute an immediate cause for concern but may still need to be documented. Example of low-level concerns include changes to children's usual presentation (i.e unclean clothes, full nappy etc) or conversations with parents that may indicate a need for further parental support (I,e mental health, parenting or economic support etc) In this event we would:

- Record the concern on a low-level concern monitoring form. This should include the reason for the concern and any details about the conversations that took place.
- The form should be handed to the DSL and a verbal conversation will take place to ensure all information is passed on.
- The DSL will check the CPOMS records to identify any patterns or trends and follow the usual protocol for managing safeguarding and child protection concerns.
- If the concern does not meet the threshold for referral, we will discuss concerns with parents and offer any advice or referral pathways that may be appropriate.
- All low level concern monitoring forms are to be actioned and recorded on CPOMS.

Monitoring children's attendance

The nursery recognises that poor attendance can be an indicator of safeguarding concerns. In addition to following up individual absences, the DSL will review attendance patterns and trends. Particular attention will be given to:

- Repeated absences
- Persistent lateness
- Frequent illness patterns
- Unexplained absences
- Changes in established attendance patterns
- Absences linked to safeguarding concerns

Attendance concerns will be considered alongside any existing safeguarding information to identify potential cumulative risk.

As part of our requirements under the statutory framework we must follow up on absences in a timely manner. See our Attendance policy for further details about the processes we will take to implement this requirement.

We are required to monitor children's attendance patterns and trends to ensure they are consistent and no cause for concern. We ask parents to inform the nursery prior to their children taking holidays or days off, and all incidents of sickness absence should be reported to the nursery the same day so the nursery management are able to account for a child's absence.

If a child has not arrived at nursery within one hour of their normal start time, the parents will be contacted to ensure the child is safe and healthy. If the parents are not contactable then the emergency contacts numbers listed will be used to ensure all parties are safe. Staff will work their way down the emergency contact list until contact is established and we are made aware that all is well with the child and family.

If contact cannot be established then we would assess if a home visit were required to establish all parties are safe. If contact is still not established, we would assess if it would be appropriate to contact relevant authorities, including the police, in order for them to investigate further.

Where a child is part of a child protection plan, or during a referral process, any absences will immediately be reported to the Local Authority children's social care team to ensure the child remains safe and well.

Repeated patterns of absence, persistent lateness, unexplained absences around significant events, or sudden reductions in attendance will be reviewed by the DSL as potential safeguarding indicators.

<u>Protocol for sharing child protection and safeguarding concerns</u>

Informing parents
Parents are normally the first point of contact. If a suspicion of abuse is recorded, parents are informed at the same time as the report is made, except where the guidance of the Local Authority children's social care team, police or LADO does not allow this to happen.

This will usually be the case where the parent or family member is the likely abuser or where a child may be endangered by this disclosure. In these cases, the investigating officers will inform parents.

Support to families
The nursery takes every step in its power to build up trusting and supportive relationships among families, staff, students and volunteers within the nursery.

The nursery will continue to welcome a child and their family whilst enquiries are being made in relation to abuse in the home situation. Parents and families will be treated with respect in a non-judgmental manner whilst any external investigations are carried out in the best interest of the child.

Confidentiality
Confidentiality must not override the right of children to be protected from harm. However, every effort will be made to ensure confidentiality is maintained for all concerned if an allegation has been made and is being investigated.

If uncertain about whether sensitive information can be disclosed to a third party, contact the DSL or call the Information Commissioner's Office helpline on 0303 123 1113. They will provide advice about the particulars relating to each individual case, including information which can and cannot be shared.

Staff must not make any comments either publicly or in private about the supposed or actual behaviour of a parent, child or member of staff.

Record keeping and data protection
Confidential records kept on a child are shared with the child's parents or those who have parental responsibility for the child, only if appropriate and in line with guidance of the Local Authority with the proviso that the care and safety of the child is paramount. We will do all in our power to support and work with the child's family.

The nursery keeps appropriate records to support the early identification of children and families which would benefit from early help. Factual records are maintained in a chronological order with parental discussions. Records are reviewed regularly by the DSL to look holistically at identifying children's needs.

Our Data protection and confidentiality policy will be applied with regards to any information received from an individual. Only persons involved in the investigation should handle this information although any investigating body will have access to all information stored in order to support an investigation.

<u>PART 2: Definitions of abuse</u>

Definition of significant harm

The Children Act 1989 introduced the concept of significant harm as *'the threshold that justifies compulsory intervention in family life in the best interests of children'*. It gives LAs a duty to make enquires to decide whether they should take action to safeguard or promote the welfare of a child who is suffering, or likely to suffer, significant harm.

Whilst there are no absolute criteria to rely on when judging what constitutes significant harm, consideration should be given to:

- The severity of the ill-treatment, including the degree of harm
- The extent and frequency of abuse and/or neglect
- The impact this is likely to have, or is having, on the child involved.

This may be a single traumatic event, such as a violent assault, suffocation or poisoning, or it can be a combination of events (both acute and long-standing) that impairs the physical, intellectual, emotional, social or behavioural development of the child.

Definitions of abuse and neglect

Abuse and neglect are forms of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm, or by failing to act to prevent harm. Children may be abused within a family, institution or community setting by those known to them or, more rarely, a stranger.

Perpetrators of abuse can be an adult, or adults, another child or children.
(*What to do if you're worried a child is being abused: Advice for practitioners* and *Working together to safeguard children*)

The signs and indicators listed below may not necessarily indicate that a child has been abused, but can help to indicate that something may be wrong, especially if a child shows a number of these symptoms, or any of them to a marked degree.

Indicators of child abuse

- Failure to thrive and meet developmental milestones
- Fearful or withdrawn tendencies
- Unexplained injuries to a child or conflicting reports from parents or staff
- Repeated injuries
- Unaddressed illnesses or injuries
- Significant changes to behaviour patterns.

Softer signs of abuse as defined by National Institute for Health and Care Excellence (NICE) include:

Emotional states: Fearful, withdrawn, low self-esteem.

Behaviour: Aggressive, habitual body rocking.

Interpersonal behaviours:

- Indiscriminate contact or affection seeking
- Over-friendliness to strangers including healthcare professionals
- Excessive clinginess, persistently resorting to gaining attention
- Demonstrating excessively 'good' behaviour to prevent parent disapproval
- Failing to seek or accept appropriate comfort or affection from an appropriate person when significantly distressed
- Coercive controlling behaviour towards parents
- Lack of ability to understand and recognise emotions
- Very young children showing excessive comforting behaviours when witnessing parental or carer distress.

Mental Health and Emotional Wellbeing

The nursery understands that safeguarding and mental health are closely linked. All staff recognise that changes in behaviour, emotional wellbeing, relationships, presentation, attendance or development may be indicators that a child requires additional support or safeguarding intervention.

Where concerns are identified, staff will record and report these concerns in accordance with safeguarding procedures and work collaboratively with families and appropriate agencies.

Child-on-child abuse

Child-on-child abuse is also known as peer-on-peer abuse; children are included as potential abusers in our policies. Child-on-child abuse may take the form of bullying, physically hurting another child, emotional abuse or sexual abuse. Reporting procedures in these instances remain the same although additional support from relevant agencies may be required to support both the victim and the perpetrator. Children who develop harmful behaviours are also likely to be victims of abuse or neglect.

If **child-on-child abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Physical abuse

A form of abuse which may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child.

If **physical abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Fabricated or induced illness (FII)

This abuse is when a parent fabricates the symptoms of, or deliberately induces, illness in a child. The parent may seek out unnecessary medical treatment or investigation. They may exaggerate a real illness and symptoms, or deliberately induce an illness through poisoning with medication or other substances, or they may interfere with medical treatments. This may also be presented through false allegations of abuse or encouraging the child to appear disabled or ill to obtain unnecessary treatment or specialist support.

FII is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Female genital mutilation (FGM)

FGM is a procedure where the female genital organs are injured or changed with no medical reason. The procedure may be carried out shortly after birth, during childhood or adolescence, just before marriage or during a woman's first pregnancy, according to the community.

It is frequently a very traumatic and violent act for the victim and can cause harm in many ways. The practice can cause severe pain and there may be immediate and/or long-term health consequences, including mental health problems, difficulties in childbirth, causing danger to the child and mother, and/or death (definition taken from the *Multi-agency statutory guidance on female genital mutilation*). Other consequences include shock, bleeding, infections (tetanus, HIV and hepatitis B and C) and organ damage.

FGM is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures. In addition, there is a mandatory duty to report to police any case where an act of FGM appears to have been carried out on a girl under the age of 18.

Breast ironing or breast flattening

Breast ironing, also known as breast flattening, is a process where young girls' breasts are ironed, massaged and/or pounded down through the use of hard or heated objects in order for the breasts to disappear or to delay the development of the breasts entirely. It is believed that by carrying out this act, young girls will be protected from harassment, rape, abduction and early forced marriage. These actions can cause serious health issues such as abscesses, cysts, itching, tissue damage, infection, discharge of milk, dissymmetry of the breasts, severe fever.

Breast ironing/flattening is a form of **physical abuse** and any concerns must be reported in line with our safeguarding procedures.

Emotional abuse

Working together to safeguard children defines emotional abuse as 'the persistent emotional maltreatment of a child such as to cause severe and persistent adverse effects on the child's emotional development.' Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur separately.

Examples of emotional abuse include:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving a child opportunity to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed, such as interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Serious bullying (including cyber bullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children
- A child seeing or hearing the ill-treatment of another.

A child may also experience emotional abuse through witnessing domestic abuse or alcohol and drug misuse by adults caring for them. In England, The Domestic Abuse Act (2021) recognises in law that children are victims of emotional abuse if they see, hear or otherwise experience the effects of domestic abuse.

Signs and indicators may include delay in physical, mental and/or emotional development, sudden speech disorders, overreaction to mistakes, extreme fear of any new situation, neurotic behaviour (rocking, hair twisting, self-mutilation), extremes of passivity or aggression, appearing to lack confidence or self-assurance.

If **emotional abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Sexual abuse

Sexual abuse involves forcing, or enticing, a child to take part in sexual activities. Sexual abuse does not necessarily involve a high level of violence and includes whether or not the child is aware of what is happening. The activities may involve physical contact, including assault by penetration (for example, rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing. They may also include non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Sexual abuse can take place online and technology can be used to facilitate offline abuse. Adult males are not the sole perpetrators of sexual abuse; women also commit acts of sexual abuse, as do other children. This policy applies to all children up to the age of 18 years.

Action must be taken if staff witness symptoms of sexual abuse including a child indicating sexual activity through words, play or drawing, having an excessive preoccupation with sexual matters or having an inappropriate knowledge of adult sexual behaviour, or language, for their developmental age. This may include acting out sexual activity on dolls or toys or in the role-play area with their peers, drawing pictures that are inappropriate for a child, talking about sexual activities or using sexual language or words.

Additional signs of emotional and physical symptoms are shown below.

Emotional signs	Physical signs
• Being overly affectionate or knowledgeable in a sexual way inappropriate to the child's age or stage of development • Personality changes, such as becoming insecure or clingy • Regressing to younger behaviour patterns, such as thumb sucking or bringing out discarded cuddly toys • Sudden loss of appetite or compulsive eating • Being isolated or withdrawn • Inability to concentrate • Lack of trust or fear of someone they know well, such as not wanting to be alone with a carer • Becoming worried about clothing being removed.	• Bruises • Bleeding, discharge, pains or soreness in their genital or anal area • Sexually transmitted infections • Pregnancy.

If **sexual abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Neglect

Working together to safeguard children defines neglect as 'the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development.'

Neglect may occur during pregnancy as a result of maternal substance abuse. Once a child is born, neglect may involve adults involved in the care of the child failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect them from physical harm or danger
- Ensure adequate supervision (including the use of inadequate caregivers)
- Ensure access to appropriate medical care or treatment
- Respond to their basic emotional needs.

The NSPCC statistics briefing for 2024 has found neglect continues to be the most common form of abuse, with one in ten children in the UK having been neglected. Concerns around neglect have been identified for half of children who are the subject of a child protection plan or on a child protection register in the UK. Younger children are more likely than older children to be the subject of a child protection plan in England because of neglect, although research suggests that the neglect of older children is more likely to go overlooked.

Signs of neglect include a child persistently arriving at nursery unwashed or unkempt, wearing clothes that are too small (especially shoes that may restrict the child's growth or hurt them), arriving at nursery in the same nappy they went home in, or a child having an illness or

identified special educational need or disability that is not being addressed. A child may be persistently hungry if a caregiver is withholding, or not providing enough, food. A child who is not receiving the attention they need at home may crave it from other adults, such as at nursery or school.

If **neglect** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Domestic abuse
The definition of domestic abuse from the Domestic Abuse Act, 2021 is:

- *Behaviour of a person (A) towards another person (B) is 'domestic abuse' if:*
  - *A and B are each aged 16 or over and are personally connected to each other*
  - *The behaviour is abusive.*

- *Behaviour is 'abusive' if it consists of any of the following:*
  - *Physical or sexual abuse*
  - *Violent or threatening behaviour*
  - *Controlling or coercive behaviour*
  - *Economic abuse (any behaviour that has a substantial adverse effect on B's ability to acquire, use or maintain money or other property and/or obtain goods or services)*
  - *Psychological, emotional or other abuse.*

It does not matter whether the behaviour consists of a single incident or a course of conduct.

Domestic abuse can happen to anyone regardless of gender, age, social background, religion, sexuality or ethnicity and domestic abuse can happen at any stage in a relationship.

Signs and symptoms of domestic abuse include:

- Changes in behaviour (for example, becoming very quiet, anxious, frightened, tearful, aggressive, distracted, depressed etc.)
- Visible bruising or single, or repeated, injury with unlikely explanations
- Change in the manner of dress (for example, clothes to hide injuries that do not suit the weather)
- Stalking, including excessive phone calls or messages
- Partner or ex-partner exerting an unusual amount of control or demands over work schedule
- Frequent lateness or absence from work.

All children can witness and be adversely affected by domestic abuse in the context of their home life. Exposure to domestic abuse and/or violence can have a serious, long lasting emotional and psychological impact on children.

Where incidents of domestic abuse are shared by our own staff, students or volunteers we will respect confidentiality at all times and not share information without their permission. However, we will share this information, without permission, in cases of child protection or where we believe there is an immediate risk of serious harm to the person involved.

If **domestic abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Contextual safeguarding

As young people grow and develop, they may be vulnerable to abuse or exploitation from outside their family. These extra-familial threats might arise at school and other educational establishments, from within peer groups, or more widely from within the wider community and/or online.

As part of our safeguarding procedures, we will work in partnership with parents and other agencies to work together to safeguard children and provide the support around contextual safeguarding concerns.

Child sexual exploitation (CSE) and Child criminal exploitation (CCE)
Both CSE and CCE are forms of abuse that occur where an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and/or for the financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence. CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation *(Keeping children safe in education*).

Child sexual exploitation (CSE)
CSE is where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child into **sexual** activity. The victim may have been sexually exploited even if the sexual activity appears consensual. CSE does not always involve physical contact; it can also occur through the use of technology and may be without the child's immediate knowledge such as through others copying videos or images they have created and posted on social media.

Signs and symptoms include:

- Physical injuries such as bruising or bleeding
- Having money or gifts they are unable to explain
- Sudden changes in their appearance
- Becoming involved in drugs or alcohol, particularly if it is suspected they are being supplied by older men or women
- Becoming emotionally volatile (mood swings are common in all young people, but more severe changes could indicate that something is wrong)
- Using sexual language beyond that expected for their age or stage of development
- Engaging less with their usual friends
- Appearing controlled by their phone
- Switching to a new screen when you come near the computer
- Nightmares or sleeping problems

- Running away, staying out overnight, missing school
- Changes in eating habits
- Talk of a new, older friend, boyfriend or girlfriend
- Losing contact with family and friends or becoming secretive
- Contracting sexually transmitted diseases.

Child Criminal Exploitation (CCE)

CCE is where an individual or group takes advantage of an imbalance of power to coerce, control, manipulate or deceive a child into any **criminal** activity. The victim may have been criminally exploited even if the activity appears consensual. CCE does not always involve physical contact; it can also occur through the use of technology.

Other examples include children being forced to work in cannabis factories, being coerced into moving drugs or money across the country forced to shoplift or pickpocket, or to threaten other young people. Signs and symptoms of CCE are similar to those for CSE.

If **CSE** or **CCE** is suspected, then any concerns must be reported in line with our safeguarding procedures.

County Lines

The National Crime Agency (NCA) defines county lines as gangs and organised criminal networks involved in exporting illegal drugs from big cities into smaller towns, using dedicated mobile phone lines or other form of 'deal line.' Customers live in a different area to the dealers, so drug runners are needed to transport the drugs and collect payment.

Perpetrators often use coercion, intimidation, violence (including sexual violence) and weapons to ensure compliance of victims. A child is targeted and recruited into county lines through schools, further and higher educational institutions, pupil referral units, special educational needs schools, children's homes and care homes.

Signs and symptoms include:

- Changes in dress style
- Unexplained, unaffordable new things (for example, clothes, jewellery, cars etc.)
- Missing from home or school and/or significant decline in performance
- New friends with those who don't share any mutual friendships with the victim, gang association or isolation from peers or social networks
- Increase in anti-social behaviour in the community including weapons
- Receiving more texts or calls than usual
- Unexplained injuries
- Significant changes in emotional well-being
- Being seen in different cars or taxis driven by unknown adults
- A child being unfamiliar with where they are.

If involvement **in county lines** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Cuckooing

Cuckooing is a form of county lines crime. In this instance, the drug dealers take over the home of a vulnerable person in order to criminally exploit them by using their home as a base for drug dealing, often in multi-occupancy or social housing properties.

Signs and symptoms include:

- An increase in people, particularly unknown people, entering or leaving a home or taking up residence
- An increase in cars or bikes outside a home
- A neighbour who hasn't been seen for an extended period
- Windows covered or curtains closed for a long period
- Change in resident's mood and/or demeanour (for example, secretive, withdrawn, aggressive or emotional)
- Substance misuse and/or drug paraphernalia
- Increased anti-social behaviour.

If **cuckooing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child trafficking and modern slavery

Child trafficking and modern slavery is when children are recruited, moved, transported and then exploited, forced to work or are sold.

For a child to have been a victim of trafficking there must have been:

- *Action*: recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation
- *Purpose*: sexual exploitation, forced labour or domestic servitude, slavery, financial exploitation, illegal adoption, removal of organs.

Modern slavery includes slavery, servitude and forced or compulsory labour and child trafficking. Victims of modern slavery are also likely to be subjected to other types of abuse such as physical, sexual and emotional abuse.

Signs and symptoms for children include:

- Being under control and reluctant to interact with others
- Having few personal belongings, wearing the same clothes every day or wearing unsuitable clothes
- Being unable to move around freely
- Appearing frightened, withdrawn, or showing signs of physical or emotional abuse.

If **child trafficking** or **modern slavery** are suspected, then any concerns must be reported in line with our safeguarding procedures.

Forced marriage

A forced marriage is defined as 'a marriage in which one, or both spouses, do not consent to the marriage but are coerced into it. Duress can include physical, psychological, financial, sexual and emotional pressure.'

Where incidents of forced marriage are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If it is suspected that a **forced marriage** is being planned, then any concerns must be reported in line with our safeguarding procedures.

'Honour' based abuse (HBA)

HBA is described as 'incidents or crimes which have been committed to protect or defend the honour of the family and/or the community, including female genital mutilation (FGM), forced marriage, and practices such as breast ironing.' (*Keeping children safe in education*). Such abuse can occur when perpetrators perceive that a relative has shamed the family and/or community by breaking their 'honour' code. It is a violation of human rights and may be domestic, emotional and/or sexual abuse such as being held against their will, threats of violence or actual assault. It often involves wider family networks or community pressure and so can include multiple perpetrators.

Signs and symptoms of HBA include:

- Changes in how the child dresses or acts, such as not 'western' clothing or make-up
- Visible injuries, or repeated injury, with unlikely explanations
- Signs of depression, anxiety or self-harm
- Frequent absences
- Restrictions on friends or attending events.

Where incidents of HBA are shared by our own staff, students or volunteers, we will respect confidentiality at all times and not share information without their permission. However, we will share this information without permission in cases of child protection, or where we believe there is an immediate risk of serious harm to the person involved.

If **honour-based abuse** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child abuse linked to faith or belief (CALFB)

Child abuse linked to faith or belief (CALFB) can happen in families when there is a concept of belief in:

- Witchcraft and spirit possession, demons or the devil acting through children or leading them astray (traditionally seen in some Christian beliefs)
- The evil eye or djinns (traditionally known in some Islamic faith contexts) and dakini (in the Hindu context)
- Ritual or multi-murders where the killing of children is believed to bring supernatural benefits, or the use of their body parts is believed to produce potent magical remedies

- Use of belief in magic or witchcraft to create fear in children to make them more compliant when they are being trafficked for domestic slavery or sexual exploitation
- Children's actions are believed to have brought bad fortune to the family or community.

If **CALFB** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Extremism and radicalisation

Under the Counter-Terrorism and Security Act 2015, there is a duty 'to help prevent the risk of people becoming terrorists or supporting terrorism'. This includes safeguarding learners from extremist ideologies and radicalisation to prevent them from being drawn into terrorism. This is known as the Prevent Duty.

Children can be exposed to different views and receive information from various sources and some of these views may be considered radical or extreme. Radicalisation is the way a person comes to support or be involved in extremism and terrorism; usually it's a gradual process so those who are affected may not realise what's happening. Radicalisation is a form of harm.

The process may involve:

- Being groomed online or in person
- Exploitation, including sexual exploitation
- Psychological manipulation
- Exposure to violent material and other inappropriate information
- The risk of physical harm or death through extremist acts.

For further information visit The Prevent Duty website.

If **radicalisation or extremism** is suspected, then any concerns must be reported in line with our safeguarding procedures. This includes reporting concerns to the police.

Online safety

While the growth of internet and mobile device use brings many advantages, the use of technology has become a significant component of many safeguarding issues such as child sexual exploitation and radicalisation.

There are four main areas of risk associated with online safety:

- Content - being exposed to illegal, inappropriate or harmful material such as pornography, fake news, racist or radical and extremist views
- Contact - being subjected to harmful online interaction with other users such as commercial advertising or adults posing as children or young adults
- Conduct - personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images and online bullying
- Commerce - risks such as online gambling, inappropriate advertising, phishing and or financial scams.

Digital Safeguarding

The nursery recognises that safeguarding extends beyond internet access used directly by children. Staff will remain vigilant regarding:

- AI-generated content
- Deepfake images and videos
- Live streaming platforms
- Online grooming
- Image sharing
- Social media misuse
- Cyber bullying
- Digital exploitation
- Security of nursery devices and systems

Parents will be supported to understand online safety risks and encouraged to monitor children's use of technology appropriately.

Report **online safety concerns** to the DSL and to the Child Exploitation and Online Protection Centre (CEOP): https://www.ceop.police.uk/Safety-Centre/
Inappropriate content received via email must be reported to the DSL and to the Internet Watch Foundation (IWF): https://www.iwf.org.uk/en/uk-report/

Up skirting/down blousing

Up skirting and down blousing are criminal offences. They involve taking pictures of someone's genitals, buttocks or other intimate images under their clothing without them knowing, either for sexual gratification or in order to humiliate, or distress, the individual.

If **up skirting or down blousing** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Child Financial Exploitation

Child Financial Exploitation occurs when children are manipulated, deceived or coerced into financial activity for the benefit of others. Whilst uncommon within the early years age range, staff remain vigilant to the impact that exploitation within families may have on children's welfare and wellbeing.

If **Child Financial Exploitation** is suspected, then any concerns must be reported in line with our safeguarding procedures.

Serious Violence

Exposure to serious violence can have a significant impact on children's wellbeing, emotional development and sense of safety. Staff will consider whether exposure to

violence within families or communities may be affecting a child's behaviour, emotional wellbeing or development.

Technology-Facilitated Abuse and Artificial Intelligence Risks

The nursery recognises that technological developments, including artificial intelligence (AI), may increase safeguarding risks. These may include the generation of indecent images, grooming, impersonation, exploitation, misinformation and inappropriate online interactions. Staff will remain vigilant to emerging safeguarding risks associated with technology and digital platforms.

If **Technology-Facilitated Abuse and Artificial Intelligence Risks** is suspected, then any concerns must be reported in line with our safeguarding procedures.

PART 3: Reporting procedures

Public interest disclosure (whistleblowing)
Whistleblowing is the term used when a worker passes on information concerning wrongdoing. All safeguarding allegations, internal or external, current or historical, must be passed on the DSL. We will cooperate fully with the authorities involved and follow any guidance given. See the Whistleblowing policy which outlines our procedures, including where staff may wish to raise concerns about poor or unsafe practice regarding our safeguarding provision. All concerns will be taken seriously by the senior leadership team.

We believe keeping children safe is the highest priority and if, for whatever reason, concerns cannot be reported to the DSL or deputy DSL, or where a staff member feels that their genuine concerns are not being addressed, concerns can be reported anonymously to the LA social services safeguarding children team, the NSPCC, the police, or Ofsted.

Allegation against our staff
An allegation against our staff may relate to a person who has:

- Behaved in a way that has harmed a child, or may have harmed a child
- Possibly committed a criminal offence against or related to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children, or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children.

We will make every effort to maintain the confidentiality of all parties while an allegation or concern is being investigated. Dealing with an allegation can be a stressful experience and, to support the staff member, a named person (usually the DSL or Deputy DSL) to liaise with will be offered. The timeframes for an investigation will follow the guidelines of other involved authorities.

We reserve the right to suspend a staff member until the investigation is concluded. Further action will be determined by the outcome of the investigation.

Founded allegations are considered gross misconduct, in accordance with our disciplinary procedures, and may result in the termination of employment. DBS will be informed to ensure their records are updated and Ofsted will be informed. We retain the right to dismiss any member of staff in connection with founded allegations following an inquiry.

All safeguarding records are kept until the person reaches normal retirement age or for 22 years, if that is longer. This will ensure accurate information is available for references and future DBS checks and avoids unnecessary reinvestigation.

Unfounded allegations will result in all rights being reinstated. A return to work plan will be put in place for any member of staff returning to work after an allegation has been deemed unfounded. Individual support will be offered to meet the needs of the staff member and the nature of the incident such as more frequent supervisions, coaching and mentoring or external support services.

If the member of staff resigns during the investigation, we will inform DBS, Ofsted and the police, where appropriate.

Support for staff during safeguarding incidents

The DSL will support staff throughout any of the processes listed above and will organise appropriate counselling should this be required.

Any member of staff who has concerns about the content of this policy and its procedures, should speak to the DSL as soon as possible. If any member of staff wishes to talk confidentially about any safeguarding concern or any other issue relating to child protection or personal circumstance, it is important to do this as soon as possible.

Reporting procedure

We will always act on behalf of the child and will do everything possible to ensure the safety and welfare of any child and so will take all allegations of potential abuse seriously. All concerns reported to staff will be pursued, regardless of the nature of the concern and to whom the allegation relates.

All staff have a responsibility to report safeguarding and child protection concerns and suspicions of abuse. These concerns will be discussed with the DSL as soon as possible, and the DSL will act also on those concerns as soon as possible and always within 24 hours.

Responding to and recording disclosures

Staff, volunteers or students may receive a safeguarding disclosure. See the guidance below for responding to and reporting disclosures of abuse.

Responding to a child's disclosure of abuse - what to do and say

- Stay calm and listen carefully
- Try not to look shocked and reassure them that this is not their fault
- Find an appropriate opportunity to say that the information will need to be shared and do not promise to keep the information shared a secret

- Allow the child to continue at their own pace
- Only ask questions for clarification and avoid asking any questions that may suggest a particular answer
- Reassure the child that they have done the right thing, let them know what you will do next and with whom the information will be shared
- Record the disclosure in writing using the child's own words as soon as possible, but not while the child is talking
- Includes the date and time, any names mentioned and to whom the information was given
- Sign and date the record, store it securely and refer the disclosure to the setting DSL and/or manager.

Recording a case of disclosure or suspicions of abuse

If you observe a concern or receive a disclosure, make an objective record using a cause for concern form. Where possible include:

- Child's name
- Age of the child and date of birth
- Setting name and address
- Date and time of the observation or disclosure
- Details of the concern using factual information, including the exact words, if relevant
- Accurate details of the observation, including actions of the child or adult involved
- Accurate details of an injury or wound seen, including position and size
- The names of any other person present at the time
- Name of the person completing the report
- Name of the person to whom the concern was shared, with date and time.

Discuss the record with the setting DSL or manager and follow the procedures. We expect all members of staff and stakeholders to co-operate with relevant agencies to ensure the safety of children.

Staff are expected to exercise professional curiosity by respectfully seeking to understand children's lived experiences and exploring concerns rather than accepting explanations at face value.

Child Protection Safeguarding Procedure

If you have a concern…..

Speak to your Room Supervisor or if unavailable to your DSL. Complete either a cause for concern form or a Low Level Monitoring form. This should be done as soon as possible (within one hour of the event)

Hand the cause for concern form or a Low level; monitoring form to the Designated Safeguarding Lead (DSL) on duty as soon as possible (within 2 hours)

The DSL will:

- Read the cause for concern form or low level monitoring form and gather any further or missing information.
- Check the history of the child on CPOMS
- Identify the level of support required using the guidance outlined in the child protection and safeguarding policy.
- If the cause for concern form relates to a staff member, the LADO protocol will be followed.

Is the child as immediate risk of harm?

YES

- Call Duty and advice on 0113760336 and select option 4 (referral)
- Inform them that the parents have not been informed as there is an immediate risk to the child.
- Provide all information required.
- Complete and send duty and advice referral form
- Follow advice given
- Update CPOMS.

If Duty and Advice are unavailable contact the Police on 101 immediately.

NO

- Inform parents of the concerns raised as soon as possible (within 24 hours) and record any conversations or information provided.
- Review information and identify if there is a need to inform duty and advice.

Is a referral to duty and advice required?
Consider the nature of the concern and the thresholds for referral and any previous concerns raised.

YES

- Inform parents of the referral to Duty and Advice and seek verbal consent.
- Call duty and advice on 011323760336 and select option 4
- Inform Duty and advice that parents are aware and have consented to the call. If they have not consented to the call please inform duty and advice.
- Provide all information requested
- Follow advice provided by Duty and Advice
- Update Cpoms and update other DSL's as needed.
- Check in on practitioner who made the

NO

- Consider alternative referral methods and discuss these with parents. Action accordingly.
- Update CPOMS and update other DSL's.
- Check in on practitioner who made the referral and provide any support required.
- Include a review period to ensure monitoring is effective.

A referral will always be made if the concern falls under the following categories:

A disclosure of:

- physical abuse by a child where a mark is visible
- domestic violence by a child
- sexual abuse by a child or physical signs of sexual abuse.
- CSE or CCE
- Cuckooing
- child trafficking or modern slavery
- forced marriage
- breast ironing or flattening
- honour based abuse
- abuse linked to faith or belief
- extremism or radicalisation
- Bruising or injuries which are extensive or significant (see Leeds LSCP for further guidance)
- Any signs of FGM

If a concern is raised anonymously and we have no contact details, we will treat the concern as valid and follow the procedures as above. If a malicious call is suspected, the procedures will still be followed: a child may be in danger. The Information Commissioners Office (ICO) will be contacted to ensure permitted data sharing.

If a concern is raised by a member of the public or another parent/carer who attends the nursery, we will provide them with advice on how to share these concerns with the appropriate authorities.

PART 4: Recruitment, selection, induction and training

Safer Recruitment and Ongoing Suitability

The nursery is committed to robust safer recruitment procedures designed to prevent unsuitable adults from working with children.

Recruitment procedures include:

- Enhanced DBS checks where required
- Identity verification

- Verification of qualifications
- Verification of employment history
- Investigation of gaps in employment history
- Verification of professional registrations where applicable
- Obtaining references before employment commences
- Independent verification of references
- Overseas criminal record checks where applicable
- Disqualification by association and childcare disqualification checks where required
- Structured interviewing against safeguarding competencies

References will be obtained and verified directly with referees. Any concerns regarding authenticity, inconsistent information or potential falsification will be investigated before employment commences.

No individual will have unsupervised access to children until all appropriate suitability checks have been completed and risk assessed.

Recruitment and selection

Through the implementation of our Safer recruitment of staff policy, we endeavour to prevent unsuitable people from becoming members of staff. We check the suitability of new recruits following the procedures outlined in the Recruitment, selection and suitability of staff policy.
Procedures include relevant checks, such as obtaining references, establishing the identity of applicant and conducting criminal records disclosures prior to employment. Where required, staff and stakeholders have enhanced DBS checks. Clear person specification criteria and processes during the recruitment and selection process enable us to determine a candidate's suitability for the role.

References will be independently verified before employment commences. Where concerns arise regarding authenticity, further enquiries will be undertaken to confirm the identity of the referee and the accuracy of the information provided.

We have specific responsibilities, as outlined in this policy, for any staff, apprentices, students and learners under the age of 18 whether living with their families, in state care, or living independently.

Induction and probation for staff
As part of our induction process, all new workers will receive basic training on this Safeguarding children and child protection policy so they have the necessary knowledge and skills to safeguard and promote the welfare of children.

Within the first week of induction, all staff will receive a copy of this policy. It is the line manager's responsibility to ensure that the new staff member understands it and is able to follow it. All safeguarding training must be completed by the end of the probationary period.

All staff are expected to keep their safeguarding knowledge and skills up-to-date and report any concerns they may have. We maintain records to ensure all staff have received the training they need.

Ongoing Staff Suitability and Disclosure

Suitability is an ongoing responsibility and not solely a recruitment requirement. In accordance with the Early Years Foundation Stage, the nursery will obtain information necessary to ensure that individuals remain suitable to fulfil the requirements of their role.

All staff must:

- Complete an annual Staff Suitability and Ongoing Disclosure Declaration
- Immediately disclose any matter that could affect their suitability to work with children
- Inform the DSL or Nursery Manager if they become subject to:
    - Arrest, charge, caution or conviction
    - Police investigation
    - Social care investigation
    - Child protection investigation
    - Court order or legal restriction
    - Childcare disqualification
    - Any concern affecting their ability to safeguard children

Failure to disclose relevant information may result in disciplinary action and referral to relevant agencies where appropriate.

Any disclosures will be considered confidentially, proportionately and in accordance with safeguarding, employment and data protection legislation.

Learners on placements or in employment
We hold responsibility for ensuring that learners on placement or in employment are familiar with and sign up to this policy and agree to work within this framework. Learners will receive basic child protection training part of their induction process.

Learners and students under the age of 18 will be protected as children. Risk assessments will be completed to ensure their safety and well-being are protected and supported during their employment or training period. If situations arise during employment or placement which identifies those aged 18 or under are at risk from abuse or neglect, we will contact the appropriate bodies to ensure the individual is safeguarded.

Safeguarding Monitoring and Quality Assurance

The nursery recognises that effective safeguarding requires continuous monitoring and evaluation.

The nursery will:

- Complete an annual safeguarding audit
- Produce safeguarding improvement action plans where necessary
- Review safeguarding incidents and outcomes
- Monitor trends in concerns and referrals
- Evaluate safeguarding training effectiveness
- Review safer recruitment practices
- Monitor staff suitability processes
- Review attendance and safeguarding indicators

Learning from audits, inspections, serious case reviews, safeguarding practice reviews and local or national safeguarding incidents will be incorporated into nursery policies, procedures and training.

Legal framework

We adhere to all current legislation, as below:

The EYFS (current version) Children and Social Work Act 2017 Criminal Justice and Court Services Act 2000 Female Genital Mutilation Act 2003 (as amended by the Serious Crime Act 2015) Freedom of Information Act 2012 Safeguarding Vulnerable Groups Act 2006 The Childcare Act 2006 The Children Act 2004 The Children Act (England and Wales) 1989 The Counter-Terrorism and Security Act 2015 The Data Protection Acts 1984, 1998 and 2018 The Domestic Abuse Act 2021 The Equality Act 2010 The Human Rights Act 1998 The Police Act 1997 The Sexual Offences Act 2003 Keeping Children Safe in Education Working together to safeguard children Information Sharing Advice for Practitioners Prevent Duty Guidance Disqualification under the Childcare Act guidance.

Relevant non-statutory guidance:

Child sexual exploitation, DfE 2017 Information sharing, DfE 2024 What to do if you're worried a child is being abused, DfE 2015
